

Integrated Solution for MOTOTRBO™

SmartPTT

SmartPTT Mobile PoC Client

SmartPTT Mobile PoC Client allows users to connect to other PoC subscribers, as well as to MOTOTRBO DMR radios from virtually anywhere in the world using your Android or iOS smartphone in LTE, 4G or Wi-Fi networks.

Enable employees without radios to participate in radio communications without the expense

FUNCTIONALITY

- Private calls
- Group calls
- Talkgroup creation, editing, and deletion
- GPS tracking
- Event logging
- Subscribers statuses identification
- Hardware PTT button support (for some Android smartphones)

FOR MANAGERS

Seamless communications with your staff even when off duty or on a business trip

FOR DISPATCHERS

Create and manage talkgroups with PoC users and DMR radios subscribers

FOR STAFF

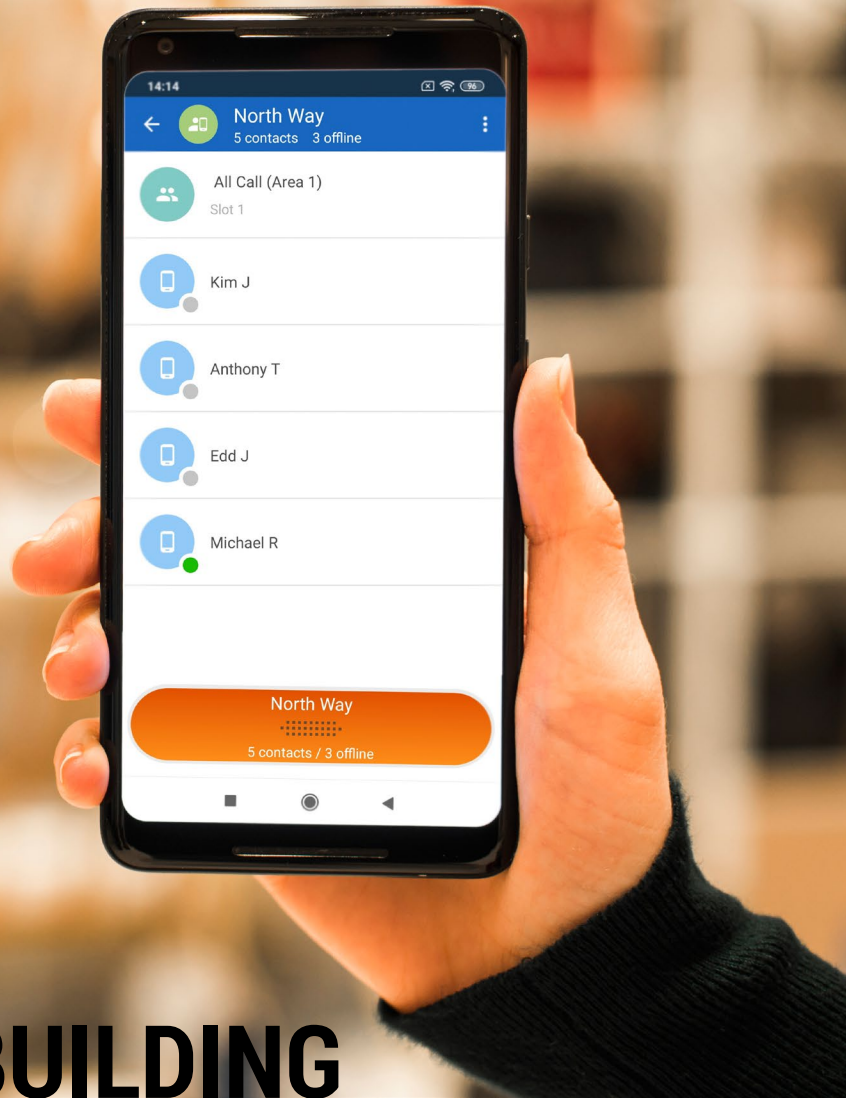

Only necessary functionality and intuitive interface for fast calls in an emergency

COST-EFFICIENT

Build your corporate communications without purchasing new portable devices

ACCESS ANYTIME

Connect with employees working in the office and in the field

EASY SYSTEM BUILDING
